

CNX601	DataPro – Importing A CenTrax File
	The Import section is used to define import layouts that associate fields from certain file formats or another CenTrax file. The following process outlines how to import into a file from another CenTrax file.
Order of Steps	Tasks
Step 1	Log into Marquis Next
Step 2	Click the  and click on CenTrax
	The active Institution and File will display in the upper right-hand section to the left of the name of the user logged in.
Step 3	Click Data Processing
Step 4	Click DataPro
Step 5	Click Import
	Any Import Definitions that have already been created will be listed under the Import Job Name list
Step 6	To create a new import definition, click the green Add New button
6.1	Type in the Name of the import definition
6.2	Select CenTrax File within the File Format selections
	<ul style="list-style-type: none"> • Double click the desired CenTrax files to be imported or merged together
Step 7	Choose to Enable or Disable the following:
	<ul style="list-style-type: none"> • Include Zero Balance: If a record has a zero balance and this is disabled, the record will not come in • Allow Duplicate Accounts: if enabled, existing records will NOT be updated and will simply be re-added.
Step 8	Select Match Records by (this option will be available ONLY if Allow Duplicate Accounts is disabled)
	<ul style="list-style-type: none"> • Acct# + Branch + Acct Type • Acct# + Acct Type • Acct # Only • Acct# + Loan# • ULI Only • ULI + Acct# • ULI + Action Date • ULI + Action Code • ULI + Action Code + Action Date
Step 9	Enable or disable Update Existing Records
9.1	If enabled, place a check mark in the following field groups to be updated:
	<ul style="list-style-type: none"> • Address <ul style="list-style-type: none"> ○ Exceptions Only ○ Only if address is different • Geocode <ul style="list-style-type: none"> ○ Import new geocode from file ○ Clear geocode • Balance Fields • HMDA Fields • CRA Fields • Fair Lending Fields • User-defined Fields • All Other Fields
